March 16, 1962

Professor J. Lederberg, Dean
School of Medicine
Stanford University
Stanford, California

Dear Professor Lederberg:

Thank you for your thoughtful letter of March 7. Some of your views parallel and some oppose those of other members of the committee, from whom I have now received comments. This includes essentially everyone. I expect that by now Dr. Golovin will have gotten in touch with you about our next meeting, although I gather that because of your trip to Japan it may be impossible for you to attend. This is most unfortunate, since at that time I hope we can air some of these questions and lay out our work for future meetings. At any rate, I will keep you informed and if you can't come I shall try to represent your point of view.

With best regards,

Sincerely yours,

Donald F. Hornig
